Isea Views is a contemporary development of two 18-storey towers in Calpe, between the salt flats, La Fossa beach and Cantal Roig beach. Its architecture connects indoor living spaces with generous terraces and views towards the Mediterranean and Peñón de Ifach. Communal facilities include an outdoor pool with a swimming lane, padel court, pétanque, table tennis, putting green, gardens and a children's play area. All residents have access to the eleventh floor of Tower 1, with an infinity pool, gym, sauna and relaxation area. The developer currently lists a three-bedroom penthouse; ordinary apartments are not advertised as available. Contact Enjoy Houses Spain for
