This exciting new gated development of 12 superb villas is under construction now. These villas will be built on manageable plots ranging from 351m2 with parking for two cars and a private 7 x 4m pool. The construction of these innovative villas is from insulated wooden walls with gypsum finish interior and white exterior plaster and the wood used is certified as being sustainable. This system insulates the house in all weather and also gives excellent protection from fire and noise. The concept of this unique development is to provide the owners with the most energy efficient houses available with every effort made to reduce the CO2 emissions and supply...(Ask for More Details!)
